

What yacht club do you mainly sail from

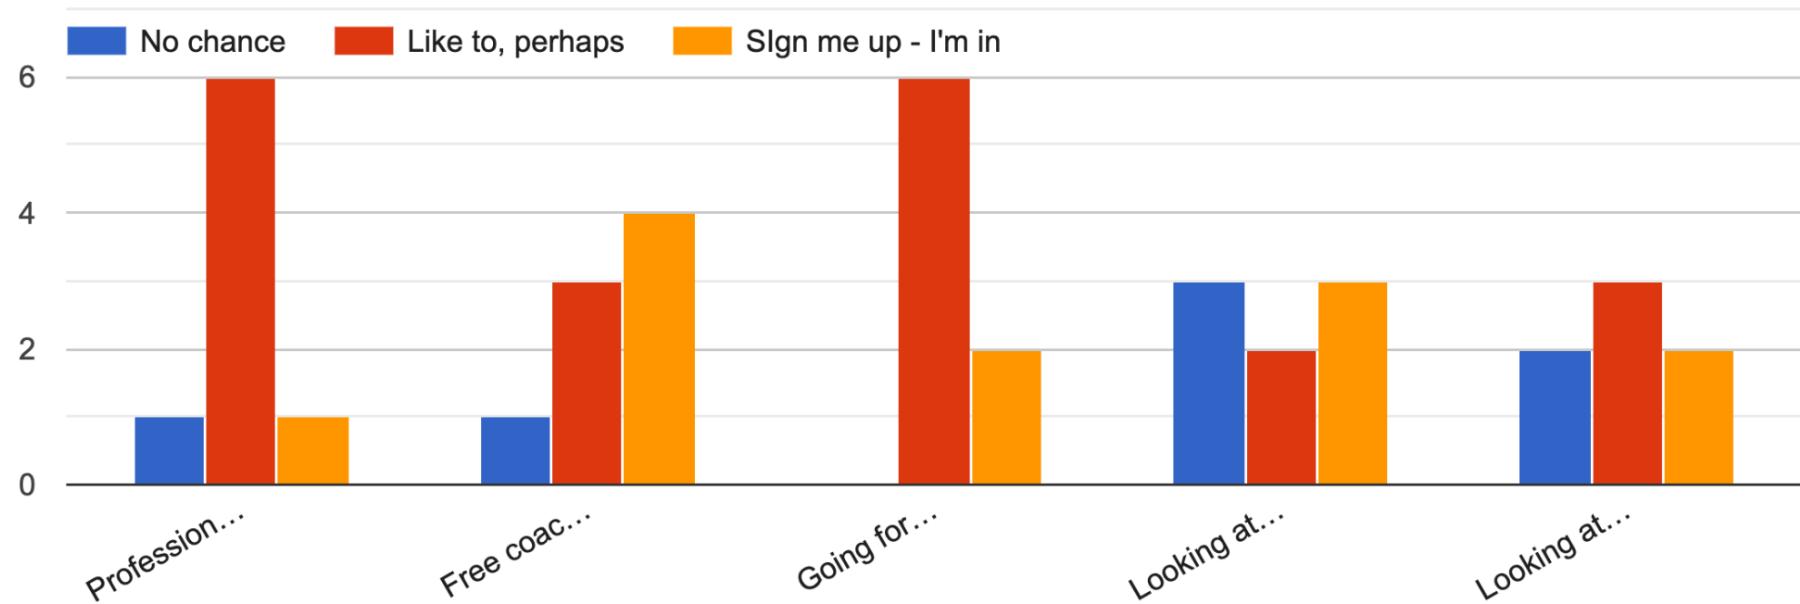

8 responses

If you look at the 2024-25 Season program which events appeal the most to you

Rate which Fireball development activities you are most likely to participate in

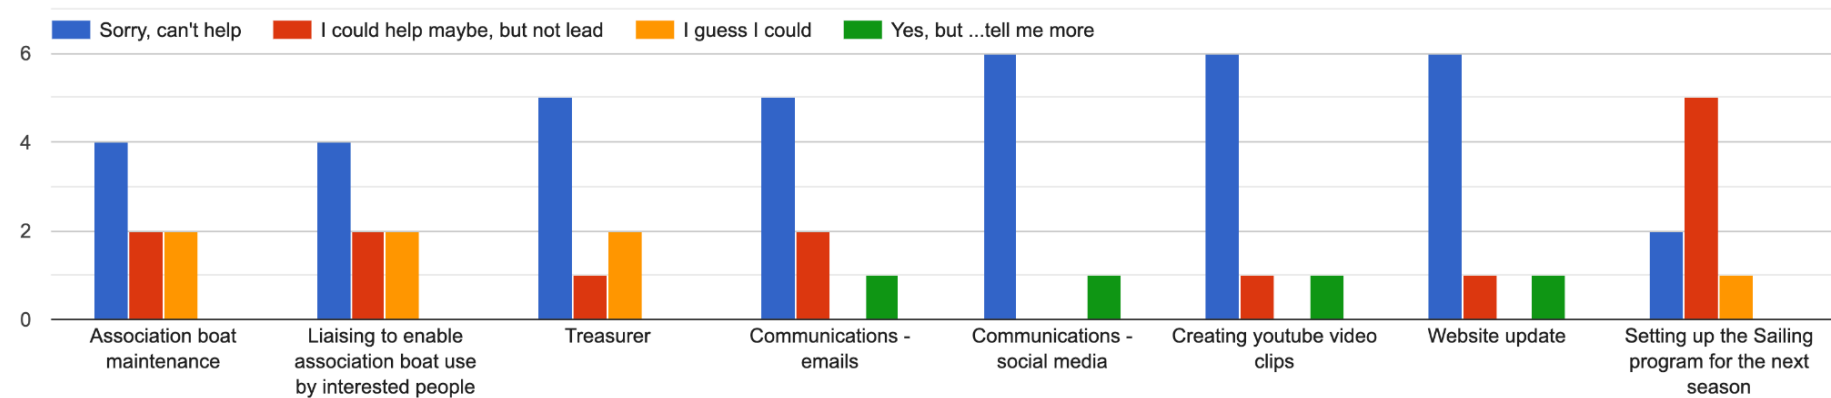

Do you have suggestions for other Fireball development activities? If so please describe them here: 7 responses

- We are discussing them
- Still thinking but don't lose sight of the people that support the class .

- Come & Try days at clubs with youth fleets that have no obvious progression
- Joint state titles with similar classes (470, 505) so we poach their members. Joint state titles events with feeder classes so they can see an alternative pathway (i.e. 420, 125< Mirror)? Short course racing prior to Nationals, to help sharpen up the fleet. Travellers series to clubs that sail Fireballs. Fireball winter series?
- Include some form of training as part of a regatta.
- A series of zoom discussion sessions with the Fireball experts - A set topic for the session with an expert as the lead and audience participation encouraged.- BYO glass of wine.
- Come try day at indented Heads

We need help to run IFAV. Can you contribute to any of these roles?

Are there any other roles you think would be good? Tell us about it. 4 responses

Coordinating or reviewing comms, particularly in relation to cohesive look & feel (Fireball branding) tone of voice and general promotions. Happy to assist with on-line comms and visual content also.

Measurement

Sorry no real transferable skills for the real world....

Happy to help with measurement of sails if Nick not available
